Profile

Computer Science student in the 5th semester based in Bochum with solid full-stack hands-on experience in cross-platform web and app development (React, Angular, Flutter, Spring Boot). Familiar with object-oriented design, microservice architectures, databases and CI/CD. Motivated to take ownership of sub-projects, conduct code reviews and contribute creative UX/UI ideas to client projects at labs.ruhr.

Practical Experience & Project Portfolio

Software Development & Freelance IT Projects — **Remote**
Conceptual design, full-stack development & quality assurance — *Since March 2025*

- **Campus Event Platform: Full-Stack Web App with React & Spring Boot**
  2026
  - **Frontend (React 18 + Vite):** TypeScript, Zustand, TanStack Query; PWA with service worker and Axios interceptors.
  - **Backend & Architecture:** Spring Boot 3.x, Spring Security (JWT), PostgreSQL, Flyway; object-oriented design using **Factory, Observer and Adapter patterns**; SSE and MQTT for realtime updates; Docker Compose, admin dashboard, OpenAPI.
- **Tuniv: Collaborative Q&A Platform with Angular, Spring Boot & Mobile**
  2025
  - **Backend:** Spring Boot, Spring Security (JWT), PostgreSQL, Redis caching, Algolia search; WebSockets for chat service.
  - **Frontend & DevOps:** Angular + Tailwind, Kotlin/Compose and SwiftUI; Docker, GitHub Actions, Terraform; complete architecture and product design documentation.
- **SahbiFit: Mobile Full-Stack Platform for Fitness Partner Matching**
  2025
  - **App & Backend:** Flutter with BLoC state management, Figma UX/UI; Spring Boot REST API, JWT, PostgreSQL, Firebase; Docker Compose, CI/CD via GitHub Actions, Retool admin panel.
- **Retail-Flow: Full-Stack Platform for Financial & Business Processes (internal client project)**
  Aug. 2025 – Present
  - **Full-Stack & Infrastructure:** Modular Angular interfaces with Spring Boot backend; deployment via AWS, Docker and Terraform; feature testing and continuous UX optimization.

Education

Fachhochschule Dortmund (University of Applied Sciences) — **Dortmund, Germany**
Computer Science (B.Sc.), 5th semester — *Since 10/2024*

Intensive German Language Course — **Germany**
Certificate: telc C1 Hochschule — *07/2023 – 04/2024*

Lycée Pilote de Sfax — **Sfax, Tunisia**
*Baccalauréat (university entrance qualification), Grade: **1.7*** — *Until 06/2023*

Skills & Strengths

Programming Languages	**Dart, Java, TypeScript, JavaScript, HTML5, CSS3, SQL**
Frameworks & Tools	**React, Angular, Flutter, Vue.js (basic knowledge), Spring Boot, BLoC, REST APIs, JWT, Figma**
Backend & Cloud	**PostgreSQL, MySQL, Redis, Firebase, Docker, GitHub Actions, AWS, Terraform, MQTT, SSE**
Architecture & Concepts	**Microservices, OO patterns (Factory, Observer, Adapter), CI/CD, scalability, code reviews**
Working Style	Solution-oriented, reliable, structured documentation & team spirit

Languages

German: Fluent (C1 - telc) | **English:** Fluent (C1) | **Arabic:** Native | **French:** B2
